

10 Reasons to Celebrate **25** Years of **KEYSTONE FUNDING**

1 The Keystone Fund was created with overwhelming support in the Pennsylvania legislature in 1993. (Senate: 48-0; House: 196-3)

2 Every \$1 invested in conservation through Keystone returns \$7 in economic value through natural goods and services.

3 In 2017, Pennsylvania ranked 5th in the nation in outdoor recreation spending. The Keystone Fund is a huge part of this success.

4 Outdoor recreation generates \$29.1 billion in consumer spending, \$8.6 billion in wages and salaries, \$1.9 billion in state and local tax revenue, and sustains 251,000 direct jobs.

5 Keystone helped to build and maintain 3,000+ community park projects including ballfields, playgrounds, pools, and recreation centers.

6 Pennsylvania has more than 12,000 miles of trails, thanks in part to more than 300+ Keystone-funded projects

7 Keystone helps Pennsylvanians live healthier lives by funding parks, trails and natural places where they can be outdoors and active.

8 The majority of Pennsylvanians support continued state investments, like the Keystone Fund, in recreation, parks, and conservation.

9 Keystone funds help make Pennsylvania recreational facilities more accessible to those with disabilities.

10 The Keystone Fund has helped to preserve more than 161,000 acres of green space for county and local parks and open space.
